

Bosch Sawzall Blades

The next item I have is on my Bosch brand bimetal sawzall blades. Now, do you cut more wood, metal or both? The blades I carry are a true bimetal so you can bend and twist them without breaking on you. They have a 1/2" shank so they will fit any brand of reciprocating saw and have a matrix 3 cutting edge which means that they have cobalt in the teeth to help burn through metal, nails and screws. The 6" blades normally retail for \$5.25 a blade but if you can work with me on a small half a box of my blades I'll pay the freight and tax to get them to you on a 30 day open account for just \$3.29 a blade. That's a good price right!!

Item#	Item Description	Case quantity	Price
1071	6" x 6 Tpi Bimetal Recip Blade	200	\$3.29
1067	6" x 14 Tpi Bimetal Recip Blade	200	\$3.29
