

### **30 LED TELESCOPING WORK LIGHT**

I've also got a GREAT price on a brand new telescoping LED work light. The way it works is it has an 8" handle where the top pulls out to twice its length revealing 30 super bright LED lights. It also has a swivel hanging hook on the top of the unit so you can hang it while using it and the work light turns on when extended and turns off when the top is slid back inside the handle. The best part of the unit is it runs on a detachable 4 volt lithium ion battery, so when the battery dies you will have a second battery to run the light which we also throw in for free. It comes with a dual quick charger so you can charge both batteries at the same time. Retail price on these lights of the tool trucks will run well over \$190 but if you can work with me on a contractors pack of the lights I will pay the freight and tax to get them to you on the 30 day open account for just \$149.90 and that's a great price right!
